Salem. From early this morning the entire section has been strongly satur ated with the cleanup spirit.

Although many deoryards in that portion of the city have previously presented a well kept appearance the coming of darkness this evening will find them more orderly than before All the back lots, the streets and every nook and corner has been carefully combed in the effort to remove the filth that always accumulates; nor has the cleanup movement been confined to gathering and burning rubbish. Many unsightly spots have been planted to vines and flowers and although not apparent, the ultimate result will be a more beautiful and homelike resident section.

The movement was instigated by a number of energetic and progressive women of the northern section of the city and they are entitled to much credit for their efforts to cleanse and beautify that residence district.
